---

The below information is in response to questions posed at our department's hearing on October 26, 2018 to discuss the proposed 2019 budget.

Alderman Patrick Thompson asked for a justification as to why business licensing has gone down – referencing a decrease of \$36.7 million in citywide non-tax revenue in 2019 – as indicated on page 28 of the Budget Overview document.

The figure referenced in this section of the Budget Overview is for all citywide non-tax revenue. This includes BACP license fees and fines but also “forfeitures and penalties for traffic or other violations; various charges for services; municipal parking; leases, rentals and interest and other revenue.” BACP revenue has increased this year and is on pace to approach \$98 million by the end of 2018.

**ID#** 70-06 Results of Violations in 42<sup>nd</sup> Ward

---

The attached information is in response to questions posed at our department's hearing on October 26, 2018 to discuss the proposed 2019 budget.

Alderman Brendan Reilly asked for a list of all violations in 2017 and 2018 for businesses located in the 42<sup>nd</sup> Ward, along with the potential fine and adjudicated judgment for each.

The attached document provides all violations and judgments in 2017 and 2018 year-to-date. There were 1,424 violations issued in 2017 and 1,101 violations issued year-to-date in 2018. The last tab provides the possible fine range for each violation.

Included in the attachment are tickets that were non-suited. BACP prosecutors may non-suit (dismiss) a ticket for a variety of reasons. For example, in some cases multiple tickets are issued to a business and during settlement negotiations some charges are dismissed and others result in a fine. In other cases, BACP may decide to non-suit the tickets at DOAH and file a license discipline case that will result in license suspension or revocation, instead of merely a fine. The licensee may also provide exculpatory evidence or information showing that a ticket was issued in error, and those tickets would also be non-suited.

As always, please let me know if you have any further questions.

---

The attached information is in response to questions posed at our department's hearing on October 26, 2018 to discuss the proposed 2019 budget.

Alderman Leslie Hairston asked for the number of cases handled in 2018 and the outcomes of those cases.

In 2018, BACP processed 44,680 total violations at the Department of Administrative Hearings, including tickets issued by BACP and the Chicago Police Department. These tickets were processed through 26,181 total cases; some cases include multiple violations. The attached document provides a description of all of those violations and their outcomes.

Included in the attachment are tickets that were non-suited. BACP prosecutors may non-suit (dismiss) a ticket for a variety of reasons. For example, in some cases multiple tickets are issued to a business and during settlement negotiations some charges are dismissed and others result in a fine. In other cases, BACP may decide to non-suit the tickets at DOAH and file a license discipline case that will result in license suspension or revocation, instead of merely a fine. The licensee may also provide exculpatory evidence or information showing that a ticket was issued in error, and those tickets would also be non-suited.

As always, please let me know if you have any further questions
